

kind attempted in this country, which rendered necessary the mission to Europe, for the purpose of obtaining general information on the subject of Railways, and the machinery used upon them;—or, for expenditures peculiar and confined to the first establishment of the Road, as in the instance of the cost of cars—building of depots—cost of moving power, &c.

In the paper marked D, is submitted a general summary, deduced from the preceding, and exhibiting the aggregate expenditures and receipts of the Company.

Respectfully submitted,

WM. WOODVILLE,  
Auditor, B. & O. R. R. C.
